Concept:

The Aria Hotel Budapest: A Paradise for Music Lovers

The Aria Hotel is the member of the Library Hotel Collection. Its musical concept gives travelers an extraordinary experience of Hungarian and world musical heritage. Architect Zsolt Szecsi and master interior designer Zoltán Varró have transformed a 19th Century bank building into a limestone-clad intimate luxury hotel with the atmosphere of a private home, a distinctive musical theme and a to-die-for rooftop.

Each of the four wings (comprised of 49 guest rooms and suites) celebrates a different major music genre: Classical, Opera, Contemporary and Jazz music through decor, art and sound. Each room and suite are designed and decorated to commemorate a specific famous composer or artist. Irving Berlin, Count Basie, Bob Dylan, James Brown and Béla Bartók are just a few of the music icons who are honored at the Aria Hotel Budapest. Josef Blecha's caricatures of notable musical legends are imprinted in every room and various other places throughout the hotel, greeting guests in and outside of the rooms.

Located in the historic city center on the Pest side of the Danube River, Aria Hotel Budapest is situated beside the famous [St. Stephen's Basilica](#). The hotel is only a few steps away from a charming pedestrian plaza featuring high-end shops, restaurants, cafés and musical entertainment, and within a five-minute walk of the renowned [Chain Bridge](#), the elegant tree-lined [Andrássy Avenue](#) and the [Budapest State Opera House](#). The city's fairytale-like [Parliament](#) and endless palaces surrounding [Szabadság tér](#) (or "Freedom Square") are also a short walk from the hotel.

The property's full service High Note SkyBar rooftop garden is one of Budapest's hottest nightspots with magical 360-degree views of the city. Café Liszt is a bar, lounge and terrace decorated with the original signature of music legends, with a modern menu following the European gastronomic line. Taste the macaron at Café Liszt, this irresistible French sweet inspired by the music of the Aria Hotel Budapest, in the creative workshop of the Hungarian dessert manufactory Chéz Dodo.

The hotel's unique music entertainment and spa concept works in concert with this majestic city to create an unparalleled experience for all travelers.

Vital Statistics:

Stories: Seven, including a beautifully landscaped year-round rooftop garden and panorama terraces.

Wings: Four, each with a separate elevator, celebrating four genres of music: Classical, Opera, Jazz, and Contemporary.

Lobby: The glass enclosed Music Garden courtyard has a tiled piano path and cozy sitting areas perfect for socializing. Its unique transparent glass enclosure is a striking design feature without any steel support and a first and only one of its kind in Europe. To honor the hotel's heritage, the lights above the Opera Wing staircase have been kept from the original building, paying tribute to the history of its transformation. The Music Garden courtyard serves as a social lounge, where guests are surrounded by music, entertainment and dining options.

Accommodations: 49 luxury room configurations, including four suites. The majority of the guestrooms offer private open-air balconies, most of which overlook the glass enclosed Music Garden courtyard and others that overlook Hercegprímás Street.

Music Library: The Aria Hotel's Music Director is on hand to ensure that travelers get expert advice on current cultural and musical activities in the area. Aria Hotel guests also have access to a library of books, CDs, DVDs to enjoy privately in their room via iPads and 55" flat screen televisions elegantly presented within a marble fireplace-style mantelpiece, or in the Teatro Aria. All rooms are surrounded by double noise protection to allow guests the freedom to enjoy music.

Private Screening Room and Multi-Function Space:

Teatro Aria:

A beautiful space adjacent to the Music Garden courtyard featuring daily evening and nighttime entertainment curated by Aria Hotel's Music Director, Kornél Magyar. The space may also be transformed for intimate, memorable private events from private dining, additional cocktail party space, to fashion shows and recitals. The Teatro seats up to 40 people.

Restaurant and Bars:

- Café Liszt on ground floor (seats 40)
- High Note SkyBar:
Perched atop the perimeter of the building, High Note SkyBar is the only year-round full service rooftop garden terrace in Budapest offering dining, cocktails, sunbathing, and unparalleled views of the city. High Note SkyBar is able to adapt to the elements, converting from an open-air rooftop garden terrace to two glass-enclosed pavilions protecting guests from intemperate weather. A dividing staircase leads guests further up to two private rooftop terraces, known as Panorama Terrace North and South.

Harmony Spa:

Guests are pampered with treatments that include using Canadian-Hungarian cosmetics manufacturer and distributor Eminence Organic Skin Care, who is the exclusive professional partner of Harmony Spa Budapest. Eminence is favoring organic and biodynamic plant ingredients during its product development as well as Hungarian natural herbs, vitamin and grape seed extracts (known for their anti-aging, antioxidant properties). The company has gained a distinguished reputation among the celebrity world both in Canada and the US. Signature treatments are set to music playlists customized to each guest's preferences.

Features lounge space, Swedish sauna, infrared sauna, steam bath, indoor pool, Jacuzzi, HydroRider aquatic exercise bicycle, three private cabanas, a fitness center with cardio, and three private treatment rooms including one treatment room for couples.

The Library Hotel Collection also launched the Aria Hotel Prague in 2003, which has been ranked the #1 hotel in Czech Republic on *TripAdvisor's* Travelers Choice Awards in the Top Hotel, Luxury, Best Service and Romance categories. Although *TripAdvisor* rankings are updated daily, the Aria Hotel Budapest has already achieved a top position within the first few months of opening.

The newest destination is Toronto, Canada where Library Hotel Collection has developed a 404-room hotel, Hotel X Toronto at Exhibition Place, opened in 2018.

Due to its "Service is Marketing" philosophy, the Library Hotel Collection accomplished something remarkable that no other hotel group has achieved before, with all four hotels continuously ranked on *TripAdvisor* among the top 10 hotels in New York City, this amongst some 460 listed hotel properties. At one time, the four hotels were ranked in all top spots in New York City. All four hotels were also nominated into the *TripAdvisor* Certificate of Excellence Hall of Fame due to being consecutively awarded the certificates five years in a row, with the Casablanca Hotel winning five Travelers Choice Awards: Two were for Best Service USA and three times for Top 25 Hotels in the USA. Library Collection Hotel properties have also received high rankings and awards from *Fodors*, *US News and World Report*, *TrustScore*, *the Global Review Index* and many more.
